# Workpad Tutorial

Figure 1: Tutorial Flowchart

Developer Tutorials

Bidding Tutorial:

This is the first of all tutorials user faces. Bidding tutorial shows a developer how to browse and bid on a job. Steps include:

1. Show modal dialog to accept viewing the tutorial
2. Cover the browsing and access to tools and pages
3. Describe how to bid.

The tutorial parameter for bidding option is 1. Upon assignment of a job by product owner (through accepting a bid) system will set tutorial to 2 only if tutorial is 1.

Submit Job Tutorial:

When a job is assigned to user for the first time the tutorial parameter will be set to 2 to activate this tutorial. The tutorial covers the navigation to the assigned user story and submission of it.

1. Show modal dialog to accept viewing the tutorial.
2. Cover browsing to assigned job.
3. Show how to submit a work.

The tutorial parameter should change to 3 if user successfully submitted his job only if the parameter value is 2.

Management Tutorials

Management tools will be activated when a project is being successfully registered on Workpad system. The workflow is as follow:

1. Product owner fills up the form and sends it to Admin.
2. Admin approves and creates the project.
3. Admin assigns the created project to Product owner.
4. System sets product owner tutorial parameter to 10.

Sprint Plan Tutorial

Sprint Plan tutorial show how to access sprint plan tool and work with it. This tutorial will be activated only if the tutorial parameter of user equals to 10. This tutorial will cover following steps:

1. Show a modal dialog to confirm viewing the tutorial.
2. Show how to access the tutorial.
3. Show how to add a draft user story.
4. Show how to add more details to story.
5. Show how to assign the job to a sprint.
6. Show how to add more sprints.
7. Show how to set the timeline.
8. Show how to save the sprints.
9. Up on save set tutorial to 11 only if its 10 and direct user to home.

Scrum Board Tutorial

This tutorial will be activated if the tutorial parameter is equal to 11. Steps are as follow:

1. Show confirm dialog to view scrum board tutorial.
2. Show how to access the tool.
3. Cover the options on user stories.
4. Click on any option should set the tutorial to 12 only if it is 11.
